What do other people say about Caroline Lucas?

“Caroline Lucas is a tireless campaigner in the European Parliament, staunchly defending human rights, and strongly promoting greater protection for animals. I urge you to cast a positive vote for a better future by voting Green in the European Elections.”

JOANNA LUMLEY, OBE
ACTRESS AND CAMPAIGNER

“She is intensely disliked by EU commissioners and much of big industry after drafting laws to force airlines to pay the true costs of flying, forcing a legal investigation into nuclear power, taking on chemical companies and harassing the Commission at every opportunity on trade, GM crops, globalisation and animal diseases.”
